

Schedule Settings: Service Types

Create codes for the different services performed for ease of documentation and report generation.

To create and manage Service Types, go to **Settings > Scheduling > Service Types**.

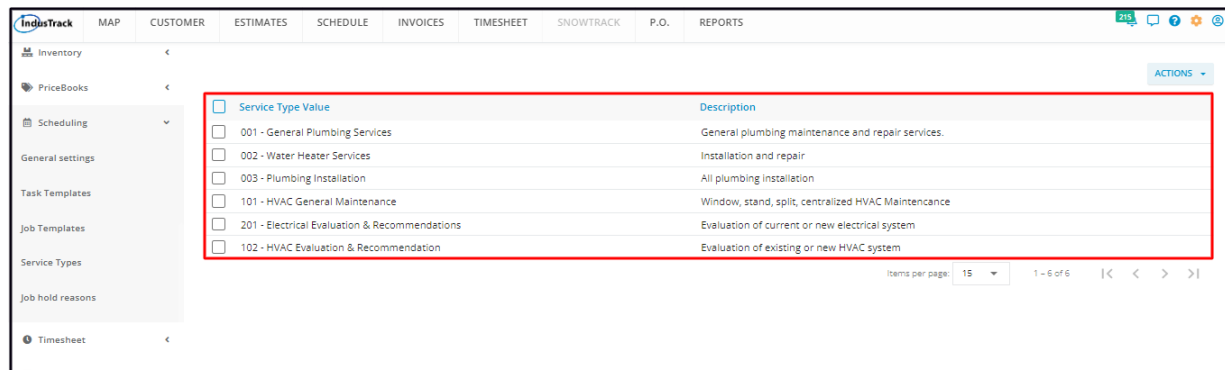

The page defaults to the list of Service Types that have already been created, presented in table format. This is also the page where these service types are created, edited and deleted.

Service Types List/Table

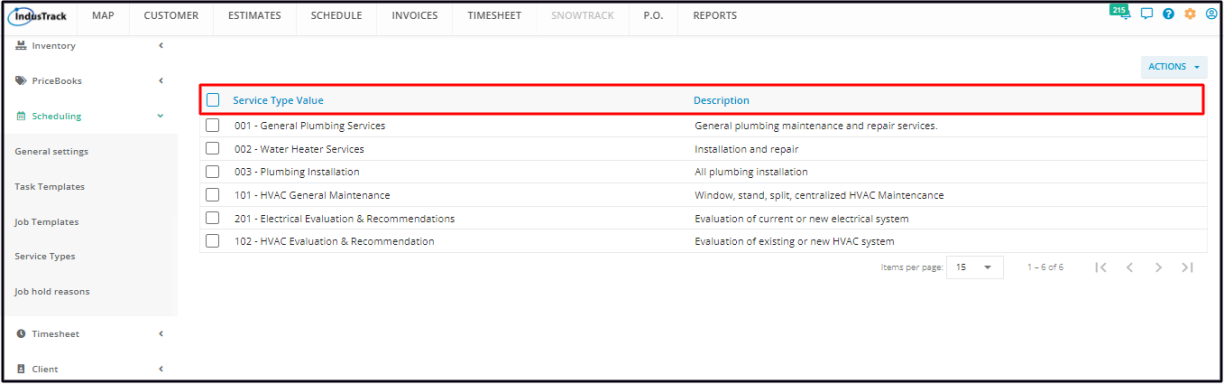

The table has 2 columns:

- Service Type Value
- Description

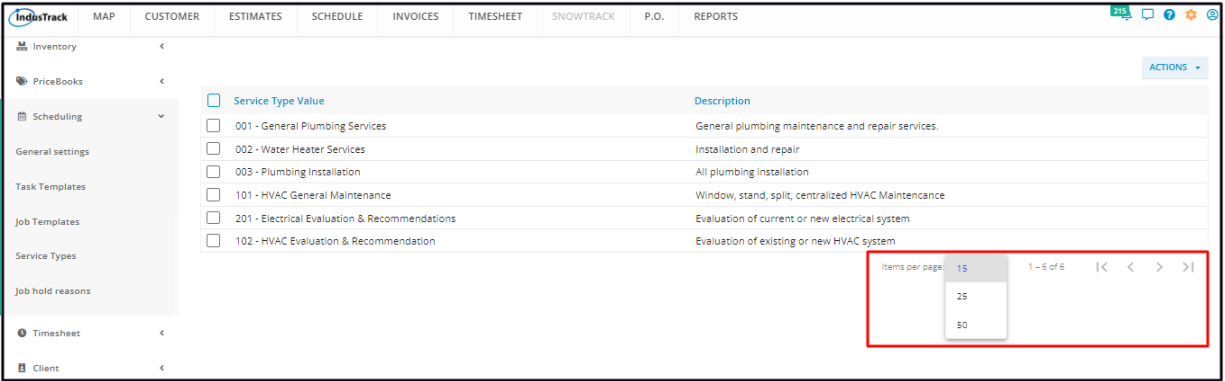

Sort the Service Type List

Click on the header to alphabetically or numerically (depending on the codes used) sort the list according to either the service type value or description.

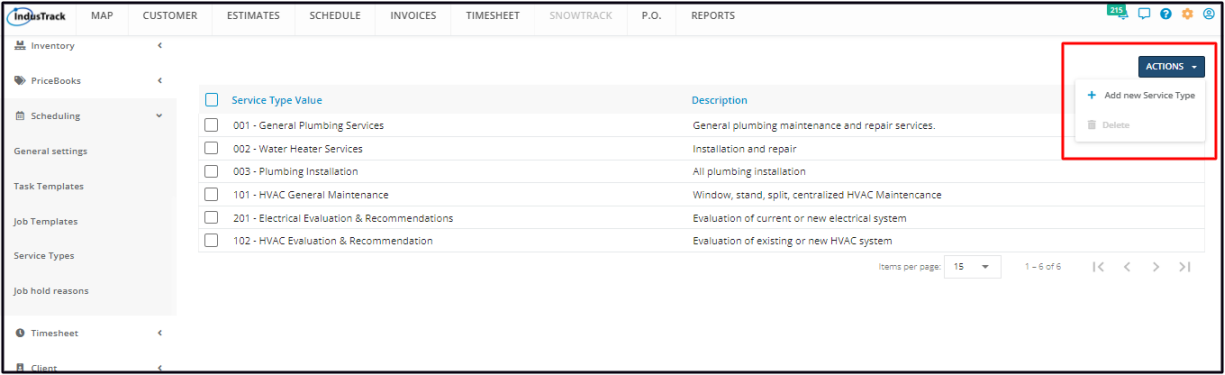

List Per Page

Select the number of service types to be displayed per page. Options to choose from are 15, 25, and 50. Use the Previous and Next buttons to move from one page to another (if there is more than one page).

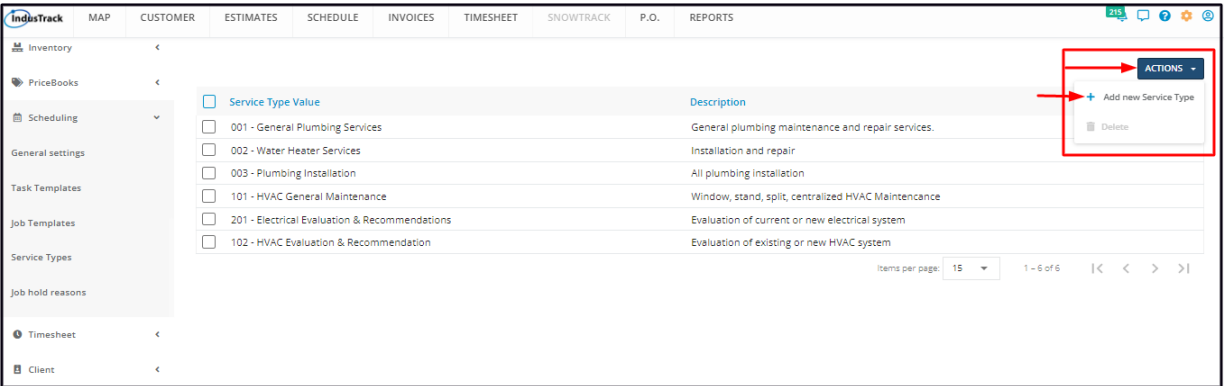

Actions Button

Use this button to create or delete a Service Type.

Create a Service Type

To create a new Service Type, go to the **Actions** button. Click on it and select **+ Add New Service Type** from the drop-down.

Fill in the Service Type details on the **Add/Edit Service Type** window.

Create a new Service Type or select a service from the inventory. When selecting a service from the inventory option is enabled, all services from your inventory will be available for selection in the Services drop-down.

The screenshot shows the 'Add/Edit Service Type' form. The 'Service Type Name' field contains the placeholder text 'please enter Service Type Value'. The 'Description' field is empty. Below these fields, there is a radio button labeled 'OR' and a checkbox labeled 'Select service from inventory', which is currently unchecked. The 'Services' dropdown menu is set to 'None'. At the bottom right, there are 'CLOSE' and 'SAVE' buttons.

The screenshot shows the 'Add/Edit Service Type' form with the 'Select service from inventory' checkbox checked. The 'Services' dropdown menu is open, showing a list of services: 'None', '01 Plans and Permits', '01.1 Plans', '01.2 Building Permits', '01.3 City License', '02 Site Work', and '02.10 Demo'. The 'SAVE' button is visible at the bottom right.

- Key in the Service Type value/code/name on the field.
- Add a brief **description** of the Service Type on the field.

Add/Edit Service Type X

Service Type Name

Description

OR Select service from inventory

Services

Save the new service type. This will be added to the list.

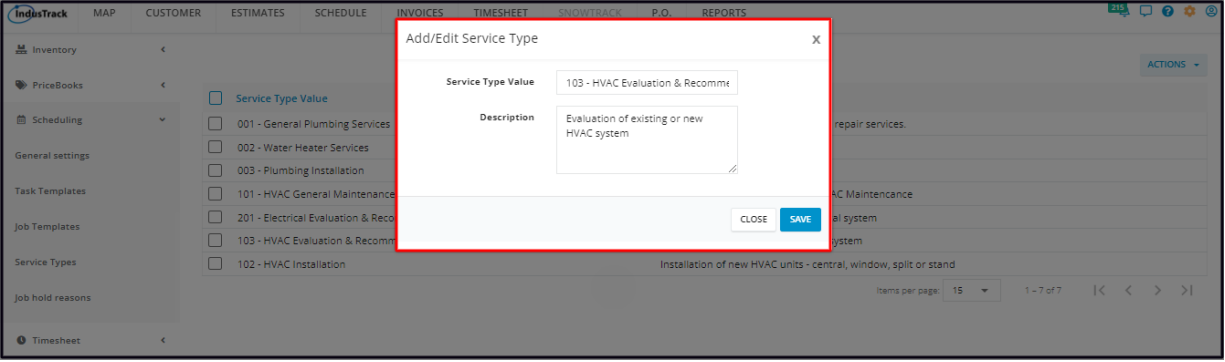

Service Type Value	Description
<input type="checkbox"/> 001 - General Plumbing Services	General plumbing maintenance and repair services.
<input type="checkbox"/> 002 - Water Heater Services	Installation and repair
<input type="checkbox"/> 003 - Plumbing Installation	All plumbing installation
<input type="checkbox"/> 101 - HVAC General Maintenance	Window, stand, split, centralized HVAC Maintenance
<input type="checkbox"/> 201 - Electrical Evaluation & Recommendations	Evaluation of current or new electrical system
<input type="checkbox"/> 103 - HVAC Evaluation & Recommendation	Evaluation of existing or new HVAC system
<input type="checkbox"/> 102 - HVAC Installation	Installation of new HVAC units - central, window, split or stand

Update/Edit a Service Type

Find the service type to be updated from the list. Click on it to open this in **Edit** mode.

Service Type Value	Description
<input type="checkbox"/> 001 - General Plumbing Services	General plumbing maintenance and repair services.
<input type="checkbox"/> 002 - Water Heater Services	Installation and repair
<input type="checkbox"/> 003 - Plumbing Installation	All plumbing installation
<input type="checkbox"/> 101 - HVAC General Maintenance	Window, stand, split, centralized HVAC Maintenance
<input type="checkbox"/> 103 - HVAC Evaluation & Recommendation	Evaluation of existing or new HVAC system
<input type="checkbox"/> 102 - HVAC Installation	Installation of new HVAC units - central, window, split or stand

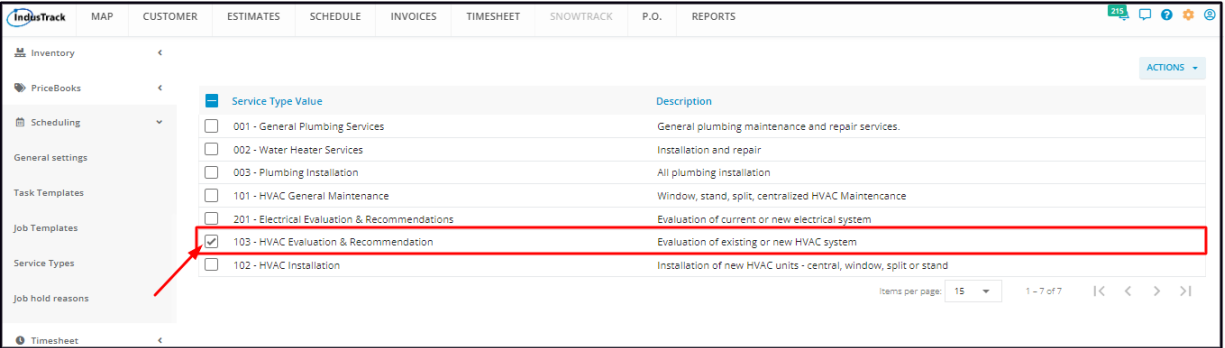

Update the details from the **Add/Edit Service Type window** as needed. Once done, **Save** the changes.

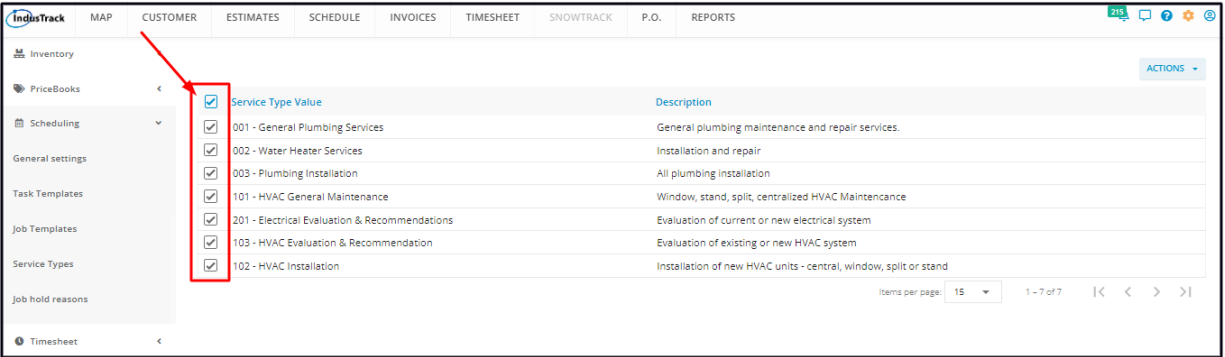

Delete a Service Type

Delete a service type that is no longer in use or was created in error. It is wise to exercise caution when using this function. Deleting a service type may have an effect on other functions, settings or data.

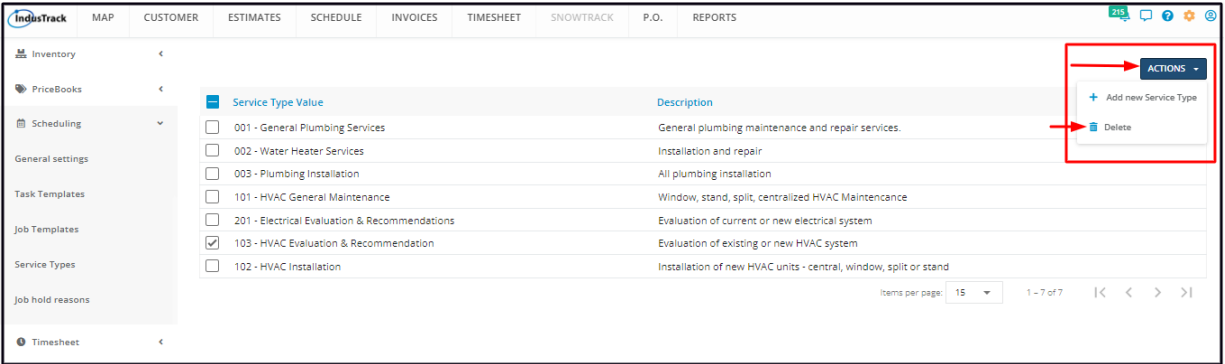

Find the service type to be deleted from the list. Tick the checkbox to its left.

- To delete multiple service types, tick the checkboxes to the left of all. If all items will be deleted, just tick the checkbox of the Name header.

Go to the **Actions** button and select **Delete**.

A warning window will come up. Click the **OK** button to continue with the deletion and **Cancel** to abandon the action.

onetrack.industrack.com says

Are you sure you want to delete selected item(s)?

OK

Cancel

The service type code will be removed from the list.

The screenshot shows the 'Service Types' section of the Industrack application. The interface includes a top navigation bar with tabs for MAP, CUSTOMER, ESTIMATES, SCHEDULE, INVOICES, TIMESHEET, SNOWTRACK, P.O., and REPORTS. A left sidebar contains navigation options: Inventory, PriceBooks, Scheduling, General settings, Task Templates, Job Templates, Service Types, Job hold reasons, and Timesheet. The main content area displays a table of service types with a red selection box around the first row.

<input type="checkbox"/> Service Type Value	Description
<input type="checkbox"/> 001 - General Plumbing Services	General plumbing maintenance and repair services.
<input type="checkbox"/> 002 - Water Heater Services	Installation and repair
<input type="checkbox"/> 003 - Plumbing Installation	All plumbing installation
<input type="checkbox"/> 101 - HVAC General Maintenance	Window, stand, split, centralized HVAC Maintenance
<input type="checkbox"/> 201 - Electrical Evaluation & Recommendations	Evaluation of current or new electrical system
<input type="checkbox"/> 102 - HVAC Installation	Installation of new HVAC units - central, window, split or stand
