

# Estimations Report

Estimate reports play a crucial role in your business. Estimate reports help managers/supervisors assess the feasibility and viability of a job or project. By providing accurate cost estimates, these reports enable you to make informed decisions about whether to proceed with the job or project.

To access **Estimations Report**, click on the **REPORTS Module** on the left-hand side and click on **Estimations**.

A drop-down option will show its subcategories for the reports you want to see:

- Estimation By Status
- Estimation By Customer
- Estimation By Tag

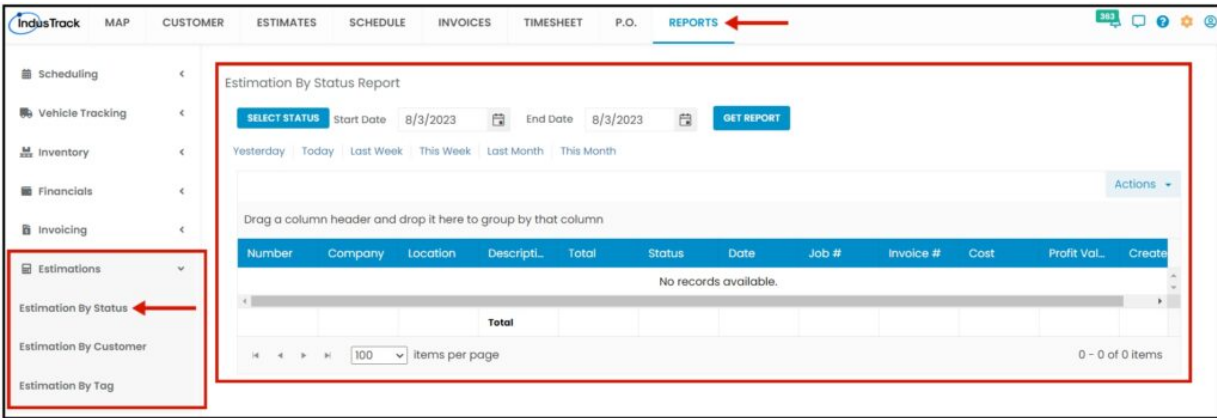

## Estimation By Status

In this Report, you will be able to generate each of the statuses of the estimates such as:

- Change Request – After creating an estimate, you will be able to send the estimate to the customer for approval or if they want to make changes to the estimate. Select the status “Change Request” to view all the estimates that the customer requested for changes.
- Draft –
- Won – Estimates that the customers approved.
- Scheduled – Estimates that are approved and converted to jobs.
- Sent – Estimates that were sent to the customers via email.
- Lost- Rejected estimates.
- Invoiced – Estimates that were successfully invoiced.

To view the Estimate By Status Report, go to **Reports** Menu on the top> Click **Estimations**> on the drop-down click **Estimation By Status**.

## Generate Estimation By Status Report

You can filter the report by the following:

1. Status– Which status you would like to generate
  - Change Requested, Draft, Won, Scheduled, Sent, Lost, Invoiced.
  - You can only select one status each time.
2. Date/s – The estimate created date.
  - Select the **start date** and **end date**
3. After you selected the status and the start and end date, click on **Get Report**.
